Draft  
PP/OPS/PR: ☐ ☐ ejh  
29 July 1955

After discussion with the AEPole case officer, the following recommended additions to the project outline are suggested:

1. Summary breakdown of the ☐ ☐ subsidy to include categories of expenditures.

2. Extra sheet to be added on Effectiveness: The items to be included here should not be duplications of facts included under either Situation or Tasks. Under Effectiveness a report of changes or results which have been brought about by the Project/activities is wanted. If effects have been reported in areas outside Lithuania, that should be included. If there are no reports or only fragmentary reports of effects within Lithuania, that should be included with a brief explanation. Also, a brief explanation of sources, such as FI reports, etc., should be included.

3. Policy Questions (para 11,f.) Second sentence should be changed and expanded. "It is preferable that wherever possible utmost effort should be made to maintain the Headquarters of the emigre organizations as close to the target area or its periphery as possible. The projected move of the VLIK Headquarters is being considered in order to utilize the services and to afford close supervision of VLIK operational activities by CIA of Lithuanian emigres who have been able to come to the US. Activities of the US branch will be undertaken only if in direct service of covering the target groups listed in para. 5.d. (2)."

4. Details on AEPole's propaganda position; should be appended to the project outline and should cover the points listed on the attached outline.
